

BLIND PROFILE

Company Overview

Carr, Riggs & Ingram Capital Advisors, LLC is pleased to represent the developers of a revolutionary cybersecurity software product that enables encryption through fully-automated, zero-provisioned, dynamic key management.

Primary attributes of the software include:

- Fully automated, zero-provisioned dynamic encryption management
- Zero human intervention for key allocation, distribution and storage
- A unique key for every session and every packet
- Replacement of PKI, ISAKMP, IKE and other asymmetric key management tools
- Broadly effective for consumer or enterprise-level applications
- Device and OS agnostic
- Easy to use and integrate
- Extremely low computation overhead
- Incorporation of standard encryption algorithms
