Delivering value by driving independence and objectivity to the intersection of management needs and public interest.

Why CRI?

CRI serves as an independent auditor* of record for micro- and mid-cap public companies across a wide range of industries. Our teams possess in-depth experience in the construction, financial services (banks and insurance), healthcare, manufacturing and distribution, and utility areas. We are also registered with the PCAOB, which oversees and monitors public accounting firms that provide audit services to SEC Registrants and Issuers. New accounting standards and financial reporting requirements for financial statements filed with the SEC evolve over time and often require an investment of time and resources to maintain proficiency. As a PCAOB registered firm, we provide training and education to our audit engagement teams to ensure that they stay informed of SEC and PCAOB requirements.

Client engagement and collaboration

The labyrinth of reporting and compliance requirements that impact audit committee members and management is often time-consuming and overwhelming. CRI utilizes experience and understanding to deliver straightforward advice that cuts through the clutter to help develop a comprehensive yet efficient audit plan to assess and reduce risk while meeting regulatory guidelines objectively.
