Helping physicians build, grow & optimize their practices.

Why CRI?

At CRI, our Healthcare Advisory team helps physician groups drive growth, streamline operations, and optimize financial performance. Whether expanding services, improving efficiency, or managing complex practice needs, we provide the expertise to support success.

Starting a new practice is exciting but challenging. Our team guides physicians through business planning, financial feasibility, and operational setup. As practices grow, we help determine the right growth strategy—whether through a new location, expanded service lines, or additional providers—ensuring sustainable, strategic expansion.

Financial success in healthcare depends on securing fair reimbursements and competitive contracts. We analyze payer data, optimize fee schedules, and assist with contract negotiations to help practices maximize revenue. Additionally, we review provider employment contracts, benchmark financial terms to industry standards, ensure agreements align with long-term practice goals, and implement IT solutions to enhance efficiency and patient care.

Let our team provide the tailored solutions needed to improve your practice's efficiency, profitability, and long-term sustainability.
