Helping you protect your organization from evolving cyber threats.

A cyber breach can result in long-lasting financial, operational, and reputational damage. CRI can help you evaluate and strengthen your organization's IT and cybersecurity controls so you can stay ahead of ever-changing cyber risks.

Our cybersecurity advisors combine deep technical knowledge with real-world operational experience in cybersecurity controls and equipment. We provide:

- Comprehensive cybersecurity testing to identify vulnerabilities
- Helpful service options, from industry-specific assessments to vendor and service provider due diligence
- Practical, tailored recommendations aligned to your environment and risk profile

Why CRI?

Organizations nationwide rely on CRI for reliable cybersecurity expertise and insight. To stay current with emerging risks and technologies, our professionals hold the following IT and cybersecurity certifications, along with Microsoft credentials and other IT industry certifications that require continuing professional education:

- Advanced in AI Security Management (AAISM)
- Certified Information Systems Auditor (CISA)
- Certified Information Systems Security Professional (CISSP)
- Certified Information Security Manager (CISM)
- Certified in Risk and Information Systems Control (CRISC)
- Certified in the Governance of Enterprise Information Technology (CGEIT)
- GIAC Penetration Testers (GPEN)
- Qualified Security Assessor (QSA) for Payment Card Industry (PCI)

You'll gain peace of mind with a thorough assessment and meaningful recommendations from a team that understands both compliance requirements and operational realities.

Ready to strengthen your cybersecurity?

Connect with CRI's cybersecurity advisors to learn how we can help you assess and reduce your organization's risk.
